Forecast for Wednesday 14 Sep 2022

Weather: Early mist and shallow valley fog clearing. A largely fine and dry day follows, but cloud will push in from the north and affect northern slopes. Any sunny spells most prolonged across southern hills. Staying dry into the evening with a mixture of variable cloud and clear spells.

Chance of cloud-free hill tops above 800m: 70% but 40% in the north until early afternoon.

Low Cloud and visibility: Periods of cloud obscuring some northern hills above 600m during the morning, this locally persistent over the Carneddau and Glyders. Cloud generally higher further south, and becoming patchier to only occasionally obscure tops above 800m during the afternoon. Largely very good visibilities but locally very poor in cloud and any early valley fog.

Meteorologist's View

A largely fine day, though views are likely to be limited on highest tops due to persistent cloud.

Forecast for Thursday 15 Sep 2022

Weather: Overnight clear spells will allow some isolated valley mist and fog patches to develop, although these clearing readily after dawn. A mixture of cloudy periods and occasional sunny spells throughout the day, most frequent in southern parts. The odd shower is possible but most routes staying dry.

Maximum wind: Northerly 20mph gusting 30mph

Chance of cloud-free hill tops above 800m: 60% rising to 80%

Low Cloud and visibility: Poor visibility in the valleys, with early morning mist and fog. Patchy cloud obscuring some tops above 600m during the morning, mainly in the north. This lifting and breaking, but still occasionally obscuring some tops above 800m. Otherwise visibility generally very good.

Temperature: **Valleys:** Plus 10 Celsius, rising to Plus 17 Celsius.
At 800m: Plus 5 Celsius, rising to Plus 7 Celsius.
Freezing level: Above the summits.
